Introducing the new business colour laser range

# Printing Solutions to Boost Your Business

We know what makes a successful print infrastructure: it has to offer flexibility, reliability and affordability. Most of all, it should have a positive impact on everybody's productivity and efficiency.

Designed specially for high print volume users, our new business colour laser range gives you the confidence to print and scan with greater speed and assurance. It also offers lower costs thanks to super and ultra high-yield toners.

Backed by enhanced security, intelligent mobile connectivity and expandable paper trays, our new range will satisfy your toughest office demands.

## Delivering Reliability and Efficiency

Brother's new business colour laser range has been designed with the needs of businesses at heart. Built with robust materials to withstand the most challenging office environments, our new range is the perfect partner for your business.

Enhance document scanning with a **Dual CIS Automatic Document**Feeder that holds up to **70 sheets\***, offering you a quick and simple way to scan directly to your preferred medium.

Using ultra high-yield cartridges means you spend less time changing toners which increase productivity. You can even customise your own time-saving shortcuts at the touch of a button\*.

# Protect What Matters to Your Business

Digital integrity is paramount to your business and the colour laser range's advance security capabilities give you full control and protection of your print infrastructure. **Secure Function Lock 3.0** and **Active Directory** empowers administrators to authorise users and restrict the functions available on the device. An integrated **NFC reader\*** also allows quick access to the printer using an ID card.

Oversee and control your print infrastructure remotely with our **BRAdmin Professional Software**—from managing printing costs with print quotas for each user to instant notifications of any printer downtime for speedy attendance.

### Personalised Solutions

Every customer is unique, which is why the **Brother Special Solutions Customisation (SSC)** enables Brother products to be modified depending on your requirements. Supported by our field service engineers and business analysts, we collaborate with you to design the best solution to meet your business challenges. **Brother Solutions Interface (BSI)\***, a web-based service platform, also lets software developers easily create customised solutions.

# Delivering Outstanding Performance and Peace of Mind

## Advanced Paper Handling

As your business and its requirements grow, your colour laser printer will grow to meet those demands. Conveniently feed thicker or odd-sized paper from the multi-purpose tray for special print jobs. You can also expand your paper input in two ways: with the tower tray that gives you up to 2,080 sheets\* for your high volume print jobs, or by adding optional paper trays that holds up to either 250 or 500 sheets each.

# Cutting the Cost of Colour Printing

Reduce your total cost of ownership (TCO) with our ultra high-yield cartridges that deliver **up to 9,000 pages of printing** for maximum output and value.

# Mobility & Flexibility

Experience true mobile integration by wirelessly printing from any device with Brother iPrint&Scan, Apple's AirPrint<sup>TM</sup>, Mopria<sup>TM</sup> and Google Cloud Print<sup>TM</sup>, including previewing your copies and faxes, and saving to Cloud.

Empower yourself with Brother Cloud Apps. This free suite of innovative applications allow you to create, edit and convert documents at selected Brother machines with an Internet connection.
