

A woman with long dark hair, wearing a light pink top and an orange cardigan with blue polka dots, is smiling and looking at a packaged salmon fillet in a supermarket. She has sunglasses on her head. The background shows a refrigerated display case filled with fresh produce like bell peppers and leafy greens.

# Fresh at the heart of customer satisfaction

Brother Food Management  
Labelling Solutions

[www.brother.com.sg](http://www.brother.com.sg)

## Clearer food safety and quality information for everyone

Today's customers are more conscious about the products they purchase and consume, and with the increasing focus on food safety failures and health scares, there is a greater need than ever before to present accurate and clear information on all packaging.

With a wealth of experience in food and beverage industry, Brother is trusted by global brands and small, independent businesses across the world for all their labelling requirements. From production to delivery, Brother's range of professional labelling solutions are designed to ensure an intuitive and seamless labelling process, helping you keep pace with ever-changing food safety guidelines and consumer demands.

## Labelling solutions for better customer experiences

In an industry where your customer always comes first, you can always count on Brother for the innovation, efficiency and reliability to help improve your customer's safety and satisfaction.

### Proven durability and reliability

From the warehouse, to shipping containers, from cold storage to the counter, our industrial-quality labels have been tested to resist chemical exposures, extreme temperatures and abrasion, and stay secured and un-faded on even the most challenging of environments.

### Effortless set up and ease-of-use

Spend less time with machine setup and training your staff. Brother labelling solutions are designed to be easily set up, configured and deployed within minutes. Best of all, with an intuitive and user-friendly interface, your staff will require minimum training in order to operate these devices effectively.

### Total flexibility and versatility

Whether you are operating a pop-up food stall or a full-service restaurant, labelling frozen ingredients or take-out food packages, Brother's professional labelling solutions feature a range of accessories such as batteries and Bluetooth modules that will help you adapt to your ever-changing needs.

# Professional labelling solutions that are ideal for:

## Supermarkets & Delis

For businesses such as supermarkets, bakeries, meat and fish counter or delicatessens, products are often sold in unmarked packaging such as plain plastic bags. As such, labels are important in displaying information such as price, ingredients, allergens and expiry dates.

### Features & Advantages

- + Barcode
- + Expiry dates
- + Allergy content
- + Contents of the pack
- + Price and weight information
- + Compatible with a wide range of print media

### Recommended Brother Solutions:

#### TD-2130N

Versatile printer that can receive input from various devices such as weighing scales

## Mobile & Pop-up Food Stalls

With the increase in the popularity of mobile food and drink stalls, there is a need for flexible labelling solutions that can be readily deployed across multiple locations. These serve to not only provide vital product information, but to also create eye-catching and memorable branding to help build your business.

### Features & Advantages

- + Brand information and logos
- + Expiry dates
- + Allergy content
- + Contents of the pack
- + Price and weight information
- + Receipts and invoices
- + Portable and compact

### Recommended Brother Solutions:

#### RJ-2150

Rugged, portable solution with wireless printing

#### RJ-3150

Robust, portable wireless printer for wider labels

## Restaurant & Café (Food Preparation)

Restaurants, food courts and cafés have an obligation to label fresh food as it arrives and indicate when it is defrosted. As food is taken from the fridge or freezer; use by dates must be added to ensure it is prepared and cooked within the allotted time.

### Features & Advantages

- + Barcode
- + Expiry dates
- + Allergy content
- + Time and date stamp
- + Contents of the pack
- + Compatible with a wide range of print media

### Recommended Brother Solutions:

#### QL-820NWB

Flexible label printer with multiple connectivity options

#### TD-2130N

Compact and fast solution for convenient printing of receipts and packaging labels

## Food Delivery & Catering

With increasing regulations requiring food delivery services and caterers to label their products with accurate consumer-relevant information, businesses are required to time-stamp their packet meals for delivery and clearly indicate consume-by times for catered food.

### Features & Advantages

- + Barcode
- + Expiry dates
- + Allergy content
- + Contents of the pack
- + Standalone printing without the need of PC

### Recommended Brother Solutions:

#### QL-820NWB

High-speed label printer with built-in time and date stamp
